EDUCATION

- **Adile Mermerci High School**
  2015 - 2019
- **Beykent University**
  Computer Engineering (GPA - 3,72)
  2020 - continues

ABOUT ME

I am a 3rd year computer engineering student. I continue my career in software development.
To my future career;
I want to continue in a position where I can use my leadership ability and software knowledge, along with my management skills.

I carry out my studies in the field of software on Front-End software development. ReactJs and JavaScript are among the technologies I use most often.

Next to the university, I am a student at Ecole-42 International software school based in France and I develop software projects.
